Program Title
H.E.L.P. (Homing Each Lost Pet)

The economic crisis has hit the Pocono area quite hard. Jobs are few and foreclosures are many. Large numbers of pets are found abandoned and lost.

We propose a mission to help these furry friends who have no one to love or care for them. Each animal that we take in is spay/neutered, given shots and medical care. We then put them up for adoption. Our rescue animals are featured in the local PetSmart Store in Stroudsburg, PA. We give them health care, nutritious food, clean water and a safe place until we can find them a home. No healthy animal is ever euthanized.

This program addresses the abandoned pet population in our community.
We are working toward a no-kill area.

Unfortunately, the cruel suffering of the abandoned pet is not the only problem. Pets left to fend for themselves will be exposed to illness, disease and insect infestation. As animals become more desperate for food, they will draw closer to humans and other animals. We strive to change that and save as many as we can. They deserve a better life than a terrible end on the streets, or a sad death in a kill shelter.

Funds for the program will be used to spay/neuter and give shots to these animals. The cost for this is \$50.00 an animal. We can't do it alone, but with help, we can make an impact. For every animal rescued and spayed/neutered, countless will be spared. Please H.E.L.P. us.
